GLOSSARY OF TERMS

Academic Skills Building (ASB)	Academic Skills Building is a program for students who have earned a diploma or high school equivalency but need additional skills building in literacy or math to enter the job market or pursue postsecondary education. Academic Skill Building provides additional instruction at NRS Level 5 and 6 (GE 9.0-12.9).
Accreditation	Recognition by an accrediting organization or agency that an institution meets certain acceptable standards in its education programs, services, and facilities.
Articulation	Systematic coordination providing the means by which students proceed toward their educational objectives in a manner that is as rapid and student-friendly as their circumstances permit, from grade level to grade level, from elementary to middle to high school, to and through postsecondary education, and when transferring from one educational institution or program to another.
Articulation Agreement	A written commitment to a program designed to provide students with a non-duplicative sequence of progressive achievement leading to degrees or certificates.
Articulation Coordinating Committee (ACC)	Created in Section 1007.01(3), Florida Statutes, the ACC is an advisory body to the Florida Talent Development Council (FTDC), the State Board of Education, and the Board of Governors for articulation issues.
“C”	A suffix to a course number indicates that a course is a combination of lecture and laboratory offered as a single course entity. (Also see “L”)
Career Certificate Program (formerly PSAV)	Job preparatory programs, excluding Continuing Workforce Education, through which a student receives a Career certificate upon completion.
Century	A major content category within a prefix in the SCNS course numbering taxonomy. Up to ten centuries can be contained within a prefix, and up to 100 courses can be contained within a century. (Also see Decade, Prefix)
College Credit	The type of credit assigned to courses or course-equivalent learning which is part of an organized and specified college degree and/or program. One college credit is based on the learning expected from the equivalent of 15 fifty-minute periods of classroom instruction, per State Board of Education Rule 6A-14.030, F.A.C.

Course Inventory Report	A report that generates a listing of all courses offered by an institution within a specified discipline or prefix including statewide taxonomic and course detail information.
Faculty Credentials	Academic qualifications of a faculty member. For courses intended for academic transfer, the minimum credential is a master's degree in the teaching field, or a master's degree in any field, plus 18 graduate-level semester hours in the teaching field.
Decade	A subcategory for courses within the major category is called a century. Up to ten decades can be contained within a century, and up to ten different course numbers can be contained within a decade. (Also see Century, Prefix)
Discipline	A specific subject area of knowledge or skills identified in the SCNS taxonomy by one or more prefixes. (See Appendix A)
Discontinued Course	A course no longer offered by an institution. A discontinued course can be reactivated in SCNS within 5 years.
Dual Enrollment	The enrollment of a secondary [middle or high school] student in a postsecondary [college level] course that will count toward both the high school diploma and a postsecondary degree or industry certification. All postsecondary courses are eligible except for developmental/remedial and physical education skills courses.
Faculty Discipline Coordinator (DC)	Each discipline/subject area has a subject matter expert that advises the SCNS in the review of new course requests and course change requests. This DC is normally a faculty member or an administrator in the specific discipline area.
Flat File Download	A tab-delimited text file of the entire SCNS current course file, available to the public for download.
Flat File Upload	Institutions may elect to submit numerous course requests to the SCNS using the online upload system. Individual course requests are then generated and placed in the institution's Course Request List, where they will be handled the same as individual, manual course submissions.
General Education	Thirty-six credit hours of coursework in communications, humanities, mathematics, natural sciences, and social sciences. Required as part of Associate and Bachelor's degrees (section 1007.25(3), Florida Statutes).
Institution Contact (IC)	A person assigned at each institution to serve as the official point of contact with the SCNS. All matters pertaining to course numbering at the institution are overseen by that person and correspondence from the SCNS pertaining to that institution is sent to the IC.

“L”	A suffix to a course number indicating that it is a laboratory course. A lab course is usually associated with a lecture (theory) course with the same prefix and number. (Also see “C”)
Level	<p>The first digit of the four-digit course number that follows the prefix. It indicates the academic year that the course is normally offered. The levels are defined as follows:</p> <ul style="list-style-type: none"> 0 = College Preparatory, Developmental, or Vocational 1 = Lower Level (freshman) 2 = Lower Level (sophomore) 3 = Upper Level (junior) 4 = Upper Level (senior) 5 = Graduate Level 6 = Graduate Level 7, 8, 9 = Graduate and/or Professional level
Occupational Completion Point	A component of a career certificate program signifying a student has completed specific requirements.
Pending Course	A course that has been approved for inclusion in the SCNS but has not yet reached its Effective Date.
Prefix	A three-letter code used for a discipline or subject area in the SCNS course numbering taxonomy, or a component of a discipline. Each prefix can contain up to 1,000 course numbers. See Appendix A for a list of prefixes.
Preparatory Instruction (aka Developmental Education)	Instruction to remedy deficiencies in writing, reading and/or mathematics skills needed before entry into college credit courses.
Reserved Course	Notation appearing in the course taxonomy for a course number that is no longer being taught at any institution in the state. Numbers are reserved for five years, after which time they can be reassigned to a new course.
Assessment Procedures for Communication and Computation (formerly the Gordon Rule)	State Board of Education Rule 6A-10.030, F.A.C. establishing mathematics and writing requirements for the Associate in Arts and baccalaureate degrees.
Statewide Articulation Agreement	State Board of Education Rule 6A-10.024, F.A.C. establishing provisions to facilitate the efficient transition of students through the various levels of the educational system (Section 1007.23, F.S.).

Taxonomy	The SCNS organizational hierarchy for a subject-matter area or a component of a subject area. It is organized as follows (going from larger to smaller units):
	<ol style="list-style-type: none"> 1. Discipline 2. Prefix 3. Century 4. Decade 5. Course Number
Clock Hour (formerly Vocational Credit)	The type of credit assigned to courses or course-equivalent learning that is part of a specific skill-based program leading to a career certificate.
Work-Based Learning Course	A course that engages students in work-based learning, defined under §446.0915(1), F.S., for more than 50% of its statute-required instructional hours. Estimation of hours is permitted. On-campus, virtual, simulated, and unpaid activities are permissible. The following do not meet the definition of work-based learning: job shadowing, mentoring, workplace tours, and other activities that do not involve “firsthand experience with tasks required in a given career field.”

ARTICULATION IN THE STATE OF FLORIDA

State policies in Florida have established articulation as a key component of student access by providing for an efficient transition of students who seek a postsecondary education. Indeed, seamless articulation, as set forth in the mission and goals of the Department of Education (Section 1007.01, Florida Statute (F.S.)), is a cornerstone of the Statewide Course Numbering System (SCNS).

Establishment of the SCNS

In the late 1960s, registrars and advisors at Florida's public institutions of higher education voiced concerns about the difficulties encountered in assigning course credits to students transferring from lower division colleges to the upper division of universities, or to students changing institutions mid-program. At that time, institutional admissions officers-based transfer-credit decisions on course titles that appeared on transcripts or on catalog course descriptions, which rarely provided an indication of the depth and detail of how subject matter had been treated in a course.

In response to the concerns expressed by admissions personnel and a concern over unnecessary repetition of courses by transfer students, the Florida Legislature provided for the development of a common course numbering system to facilitate the transfer of credit for equivalent courses among the state's colleges and universities (s. 1007.24(1), F.S.; see Appendix F). In the 1971 Articulation Agreement (s. 1007.24(7), F.S.), the Legislature established procedures for the transfer of courses among institutions that participate in the common course designation and numbering system. By 1976, all public institution courses were entered into the common course numbering system, thereafter, known as the SCNS.

Section 1007.24(1), F.S., was amended in 1981 to require the incorporation of postsecondary adult vocational courses into the SCNS.

Legislation passed in 1987 (s. 1007.24(6), F.S.; see Appendix F) enabled participation in the SCNS by licensed nonpublic institutions that were fully accredited by a member of the Commission on Recognition of Postsecondary Accreditation (CORPA) and accredited nonpublic postsecondary colleges exempt from state licensure. The purpose was to have complete inventories of all postsecondary course offerings in the state. Legislation passed in 1998 (s. 1007.24(6), F.S.; see Appendix F) authorized nonpublic institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education to participate in the SCNS. In 2023, there are 40 nonpublic institutions affiliated with the SCNS (see Appendix B).

Efficient articulation between participating institutions depends largely on the SCNS. The SCNS has been enhanced over the decades to accommodate a growing number of programs and courses. The system has shown flexibility as the scope of the listings has broadened over the years. In his 1990 national study, Louis Bender, a professor of Educational Leadership at Florida State University, noted that "Florida probably has one of the most comprehensive and operationally efficient common course numbering and designation systems." Florida's SCNS has been regarded as a model by other states seeking to design or redesign their systems.

Development of the SCNS

Before the SCNS could be implemented at state universities and colleges, a number of decisions were made on structure and procedures.

Decision One: Classification System

The first decision was to determine a classification system that could transcend the different organizational structures existing at institutions—a system essentially “department-free.” The discipline classification would allow the categorization of courses according to the content only, regardless of the administrative units to which courses were assigned at individual institutions.

By design, the course numbering system aimed to accomplish the following:

- Provide a framework for each discipline to categorize courses. The same framework would be used by all institutions.
- Be a joint undertaking of universities and community colleges. A state agency would manage the system and facilitate communication.
- Place responsibility for determining course equivalencies with faculty at universities and colleges who would make decisions based on detailed course descriptions or course syllabi.
- Establish course inventories listing all courses offered at Florida’s universities and colleges and identify equivalent courses; and
- Develop statewide course descriptions, or course equivalency profiles, to be used in determining equivalencies.

Decision Two: Structure of Classification System

Because all courses in public institutions of higher education were intended to be included, disciplines had to be structured to accommodate large numbers of different courses. The organizational scheme decided upon was a three-letter prefix and four-digit identification. The first digit would denote the course level (freshman, sophomore, etc.) and would be recommended by each institution, while the three-letter prefix and three-digit number would be used only for categorization of content. Each course number may include a lab code that denotes a laboratory or combination lecture/laboratory course.

In 1973, using the Higher Education Government Information Systems (HEGIS) subject areas, and through the work by Florida community colleges, the SCNS began phasing in discipline (subject matter) areas. By 1976 all institution courses were added to the course numbering system in 150 disciplines. Additionally, prefixes were generated for each discipline identified. If one prefix proved to be insufficient for a discipline, additional prefixes were created. The course categorization scheme that emerged is structured as follows:

- The **prefix** designates a particular area or part of a discipline.
- Each **prefix** is divided into ten (10) major content categories, called **centuries**.
- Each **century** is further divided into ten (10) subcategories for courses with related content. These subcategories are called **decades**. Courses are placed within decades (see Figure 1 for an example).

Figure 1: The SCNS taxonomy for English Language and Literature, showing the available prefixes (AML, CRW, ENC, ENG, ENL, and LIT) and expanding a century and decade to show the individual course level.

ENGLISH LANGUAGE AND LITERATURE	
▶ AML - AMERICAN LITERATURE	
▶ CRW - CREATIVE WRITING	
▼ ENC - ENGLISH COMPOSITION	
▶ 000-099	DEVELOPMENTAL ENGLISH
▼ 100-199	FRESHMAN COMPOSITION
▼ 100-109	FRESHMAN COMPOSITION SKILLS
ENC 100	FUNDAMENTALS OF WRITTEN COMMUNICATION (A.S. TRANSFER)
ENC 101	FRESHMAN COMPOSITION SKILLS I (GE CORE)
ENC 102	FRESHMAN COMPOSITION SKILLS II
ENC 105	CLAST REVIEW: ENGLISH LANGUAGE SKILLS
ENC 106	COMPOSITION II (A.S. TRANSFER)
ENC 107	ADVANCED COLLEGE WRITING
▶ 110-119	ESSENTIAL SKILLS IN ENGLISH
▶ 120-129	FRESHMAN COMPOSITION: HONORS
▶ 130-139	SPECIAL TOPICS IN FRESHMAN COMPOSITION
▶ 140-149	SPECIAL TOPICS IN FRESHMAN COMPOSITION
▶ 150-159	COLLEGE ENGLISH FOR TECHNICAL AND A.S. DEGREE PROGRAMS
▶ 160-169	NATURE WRITING: LOWER DIVISION
▶ 170-179	
▶ 180-189	
▶ 190-199	
▶ 200-299	TECHNICAL, BUSINESS, AND PROFESSIONAL WRITING
▶ 300-399	ADVANCED COMPOSITION
▶ 400-499	SPECIAL TOPICS IN COMPOSITION
▶ 500-599	COMPOSITION THEORY: UNDERGRADUATE LEVEL
▶ 600-699	
▶ 700-799	COMPOSITION THEORY - GRADUATE LEVEL
▶ 800-899	
▶ 900-999	GENERAL, MISCELLANEOUS CATEGORIES
▶ ENG - ENGLISH - GENERAL	
▶ ENL - ENGLISH LITERATURE	
▶ LIT - LITERATURE	

Decision Three: Faculty Discipline Committees and Responsibilities

The next task was to create the course categorization scheme (or taxonomy), analyze course descriptions, determine course equivalencies, and assign numbers to courses. Because only teaching faculty members have the necessary expertise, a committee for each discipline was established consisting of faculty representatives from various institutions, with one member serving as the Discipline Coordinator.

Decision Four: Determining Course Equivalencies

The fourth decision was to determine which criteria to use in assigning course numbers and determining course equivalencies. Guidelines for determining course numbers and equivalencies emerged that included attention to prerequisites; intended students; level of complexity (introductory, intermediate or advanced); content, depth and detail with which content is treated in a course; and outcomes (level of operation or specific skills).

Today, faculty credentials also must be considered when determining course equivalency. Instructional procedures or delivery methods are not considered when determining course equivalencies. These are the prerogative of the institution and the instructor. Further, the decisions about which courses or programs to offer are the institutions' prerogative.

Note: Prior to 2020, the U.S. Department of Education (USED) distinguished regional accreditors, which operated in specific regions of the country, from national accreditors. In 2020, USED revised federal regulations to eliminate distinctions between regional and national accreditors, given that all accreditors are held to the same standards. Any reference to “regional” or “national” accreditors in this handbook refer to distinctions established prior to the regulatory changes.

During the 2022 legislative session, Senate Bill (SB) 7044 created s. 1008.47, F.S., to prohibit FCS institutions and state universities from being accredited by the same accrediting agency or association for consecutive accreditation cycles. It specified that institutions must seek accreditation from a State Board of Education (SBOE) or Board of Governors (BOG)-identified accreditor or association in the year following reaffirmation or fifth-year review by their current accrediting agency (all belong to the Southern Association of Colleges and Schools Commission on Colleges). This handbook still references SACSCOC policies, as that is the current accrediting body of all 40 public institutions in Florida. Updates will be made at such time as Florida institutions become accredited by a new agency.

Logistics and Maintenance of the SCNS

The SCNS is part of the Florida Department of Education’s Office of Articulation. The SCNS staff consists of an Assistant Vice Chancellor, an assistant administrator, and professional staff.

Each of the professional staff members is assigned specific disciplines, which ensures familiarity with the structure and procedures for each area. Further, individual staff members have established effective working relationships with their assigned Discipline Coordinators. This provides for continuity in operating the system and expediting course transactions. Approximately 30,000 requests for new, changed, or discontinued courses are processed each year.

Each of the public universities, state colleges, regional career, and technical education centers, and participating nonpublic institutions have a designated Institutional Contact person who coordinates course numbering matters. The contact person ensures that submitted courses have been approved by the institutional curriculum committees and is responsible for communication between the institution and the SCNS office (see Appendix D for the responsibilities of the institution contact).

While there is only one primary institution contact person, institutions may request additional login credentials for other personnel who require access to the SCNS system for purposes of submitting and monitoring course requests.

General Principles of the SCNS

Course Number Assignments

All postsecondary courses offered by institutions participating in the SCNS must be entered into the SCNS database. The SCNS uses a course designation that consists of a three-letter prefix and a four-digit number, and when needed, a one-letter lab designation (L for laboratory only, C for lecture/lab combinations).

Example: CHM 1020L, Introduction to Chemistry Lab

PREFIX	LEVEL	COURSE NUMBER	LAB INDICATOR
CHM	1	020	L

This course would be taught in conjunction with the companion lecture course, CHM 1020. If an institution chooses to teach both the lecture and lab together, the lab indicator becomes “C” for a combination course: CHM 1020 + CHM 1020L = CHM 1020C.

The level code, which corresponds to the year in college the course is normally taken (i.e., freshman, sophomore, etc.), is placed between the course prefix and the course number. The level is recommended by the institution according to its own policies. The level digit does not affect course equivalency—course equivalency is determined by the prefix and the last three digits. The following are the level definitions:

- 0 = college prep, clock hour (PSAV), career prep (vocational)
- 1-2 = lower-level undergraduate, freshman, and sophomore
- 3-4 = upper-level undergraduate, junior, and senior
- 5-9 = graduate and professional

Courses are numbered based on content, rather than by department or program. A single academic program may have courses in several different disciplines and may have courses with several different prefixes.

Institutions may use their own course titles to describe course content. The course title does not affect the transferability of a course.

Each course shall have only one prefix and one number (see SBOE Rule 6A-10.024(13), F.A.C.

Institutions not participating in the SCNS are prohibited from using SCNS numbers (s. 1007.24(6), F.S.).

Course Transfer

Courses that have the same academic content and are taught by faculty with comparable credentials are given the same prefix and number and are considered equivalent courses. Equivalent courses are guaranteed to transfer to any other institution participating in the SCNS. The credit awarded for these equivalent courses will satisfy the receiving institution’s requirements on the same basis as credits awarded

to native students (s. 1007.24(7), F.S.). Courses that are not substantially like any other course in the SCNS are given unique course numbers and are not considered equivalent.

Receiving institutions are never precluded from accepting non-equivalent courses to satisfy specific requirements.

Credit generated at institutions on the quarter-term system may not transfer the equivalent number of credits to institutions on semester-term systems. For example, 4.0 quarter hours often transfers as 2.67 semester hours.

Laboratory Equivalency

If a student has only taken the laboratory or the lecture portion of a course and transfers to an institution where the same course is offered only in combination, it is the receiving institution's responsibility to determine whether and how to assign credit to this partially fulfilled requirement.

Exceptions to Guaranteed Transferability

Since the initial implementation of the SCNS, specific disciplines or types of courses have been excepted from the guarantee of transfer for equivalent courses. These include variable topics courses that must be evaluated individually, or applied courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and will not transfer automatically. Transferability for these courses is at the discretion of the receiving institution.

- Courses not offered by the receiving institution.
- For courses at non-regionally accredited (private) institutions, courses offered prior to the established transfer date of the course in question.
- Courses in the X900-999 series are not automatically transferable and must be evaluated individually. These include such courses as Special Topics, seminars, internships, apprenticeships, practicums, study abroad experiences, thesis, and dissertations (including any similar individualized courses with numbers other than those in the 900-999 series).
- College preparatory (developmental or remedial) and career preparatory courses.
- Graduate-level courses.
- Applied courses in the performing arts (Art [prefix ART], Dance [DAA], Interior Design, Music [MVB, MVH, MVJ, MVK, MVO, MVP, MVS, MVV, and MVW] and Theater [TPP with numbers ranging from 000-299]) and skills courses in Criminal Justice are not automatically transferable. These courses need evidence of achievement (e.g., portfolio, audition, interview, etc.) and must be evaluated individually.

Inclusion of Nonpublic Institutions

In 1998, Florida law (s. 1007.24(6), F.S.) was amended to allow nonpublic colleges and schools that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education, and are either eligible to participate in the William L. Boyd IV Effective Access to Student Education Grant Program or have been issued a regular license, to participate in the Statewide Course Numbering System (see Appendix E for complete information concerning nonpublic institution participation requirements in the SCNS).

Currently, there are 41 nonpublic institutions affiliated with the SCNS, of which 13 are accredited by the former regional accrediting associations (see Appendix B for a complete listing).

When a nationally accredited private institution submits a course to the SCNS, staff must examine both the course content and the transcripts for all faculty teaching the course. Faculty must possess a master's degree in the field in which they are teaching or a master's degree plus 18 masters level hours in the field they are teaching. Credentials required for workforce courses can vary. Courses with the same content and comparable faculty credentials are given numbers that equate to other institutions. Students who successfully complete a course after the SCNS review date with the same course number as the receiving institution are guaranteed transfer of that course and credit (s. 1007.24(7), F.S.). Courses with dissimilar content or those taught by faculty without the requisite credentials are given different course numbers and are not guaranteed for transfer. A listing of nationally accredited courses is available on the SCNS homepage under the "Latest News" banner in a report entitled *Courses at Non-Regionally Accredited Institutions*.

Determining Levels for SCNS Courses

Section 1007.24(2), F.S., gives the Commissioner of Education the authority to appoint committees to determine the levels for courses in the SCNS. The assumption of this statute is that courses similar in content should have similar levels to facilitate the transfer of credit throughout the system. Moreover, courses that are correctly given different levels are not equivalent. Therefore, courses with different levels will not be assigned the same prefix and last three digits in the SCNS.

Institutions, when submitting a course to the SCNS for review and number assignment, will request the course level. The appropriate Discipline Coordinator will review the course both for content and the appropriateness of the material for the level suggested. If the course content is appropriate for the level requested by the institution, the Discipline Coordinator will assign an equivalent or unique course number to the level requested by the institution.

If the course content is not appropriate for the level requested, the Discipline Coordinator will communicate this difference to SCNS staff with a directive (if necessary) to seek more information to justify why the content at this institution warrants a different level. The discrepancies between course content and level recommendation will be evaluated under the following criteria:

- If the course submitted is comparable in content to existing SCNS courses at other institutions but at a different level.
- If the course submitted has no other comparable courses in the SCNS, the Discipline Coordinator will evaluate, using established criteria from SBOE Rule 6A-10.0242, F.A.C. and that of the ACC Standing Committee on Postsecondary Articulation Policy, the content and materials submitted for the appropriateness of the level recommended.

In cases where a question is raised regarding the proper level of a course and the institution does not agree with the initial recommendation regarding level and course number, the course will then be assigned a number based on one of the following conditions:

- The course will be given the institution-recommended course level at an equivalent or unique course number (prefix and last three digits). This will occur if the institution has supplied adequate documentation supporting the different course level.
- The course will be assigned a different level than recommended to match existing courses and/or course content. This will assume the institution agrees with the Discipline Coordinator's assessment of the level, or the material submitted in support of the different level was not sufficient to support the level recommended.

If the SCNS and institution cannot resolve an issue regarding the level or course number assigned, the institution may appeal to the Standing Committee on Postsecondary Articulation Policy for review. If no resolution is achieved the matter will be forwarded to the ACC for discussion and final action.

Continuing Maintenance of the SCNS

New prefixes, centuries and decades are added to existing disciplines as necessary to accommodate newly added courses. New prefixes may be added to existing disciplines if there are too few course numbers available. New prefixes will not be authorized, however, where one or more of the following conditions exist:

- The new prefix would impede the transfer of students.
- The Discipline Coordinator does not approve the new prefix.
- The new prefix is requested merely to highlight one institution's program.
- The subject matter already fits appropriately into the existing taxonomy.
- The prefix is requested for non-substantive courses only or those numbered in the 900-999 range.
- The new prefix is solely for administrative or staff convenience.

Courses that have not been taught for five years must be discontinued from the institution's course catalog and from the SCNS, per s. 1007.24(9)(d), F.S. If needed, discontinued courses may be reactivated within five years of their discontinue date. Florida Administrative Rule 6A-10.0331 requires that college and university presidents annually certify to their Board of Trustees that this purge of unused courses has been completed.

Uses of the SCNS

Because all public postsecondary institutions in Florida use the same course numbering system, the evaluation of students' transcripts is easier and more efficient than in the past. The guaranteed transfer of equivalent courses has reduced the time required to complete a degree. The services offered by the SCNS expedite and facilitate the work of other Department of Education units such as the Division of Florida Colleges, Division of Career and Adult Education, Bureau of Educator Certification, Education Data Warehouse, and the Bright Futures Scholarship Program, as well as the Board of Governors. This means substantial savings for students and taxpayers.

Information in the SCNS makes the student counseling process more efficient and effective, allowing counselors at high schools and colleges to identify transferable courses and institutions offering those courses. For future transfer students, SCNS comparison reports can provide information on the courses that have guaranteed transfer to a selected institution.

Because the SCNS is a repository of course information for the entire state, instructors who plan new courses can view descriptions of existing courses, both original institution course descriptions and statewide course profiles. Because courses are organized by course categories, content areas and existing course offerings within those areas, specific course information can be easily identified and retrieved. This information is available on the SCNS home page at <http://flscns.fldoe.org>.

SCNS Reports Available Online

There are SCNS Reports available to the public. On the SCNS home page (<http://flscns.fldoe.org>), click the Reports link at the top of the screen to view available predefined reports. Each menu item is a link to the selection and filtering criteria for that report.

The screenshot shows the SCNS website interface. At the top, there is a navigation menu with the following items: HOME, FIND A COURSE, REPORTS (highlighted with a red circle), DOWNLOAD, RELATED LINKS, ARTICULATION, and HELP. Below the navigation menu is the Florida Department of Education logo. The main content area features a large blue header for the "Statewide Course Numbering System" with the text "For assistance, please contact: Administrator". Below this header is a welcome message and a photograph of a student. There are two sidebars: "Latest News" with a link to "Courses at Non-Regionally Accredited Institutions, Apr 2019" and "Institution Contacts & Discipline Coordinators" with a login form. The login form includes fields for "Username" and "Password", a "Log In" button, and a "Forgot Password / First-Time Login" button. At the bottom of the page is the SCNS logo.

Additional reports can be requested by email or telephone to:

APPENDIX C: RESPONSIBILITIES OF DISCIPLINE COORDINATORS

- Serve in an advisory capacity to the Statewide Course Numbering System (SCNS) on all matters related to the discipline.
- Review new course requests in the Discipline Coordinator's (DC) field from educational institutions throughout the state of Florida. Assign prefixes and course numbers which are consistent with the discipline taxonomy and statewide course details. This information is processed electronically through the SCNS online system. Standard turnaround time for course requests is **two weeks**.
- Review course change requests from institutions who wish to update existing courses. Determine if the requested changes are consistent with the existing course number.
- Provide advice and leadership for the development and maintenance of discipline taxonomy and statewide course details. Review and evaluate upper/lower division course levels to comply with s . 1007.24(2), F.S.
- On an ad hoc basis, serve as the chair of faculty discipline committee meetings that may include faculty from public colleges, universities, career, and technical education centers, and/or participating private institutions.
- Notify the SCNS in advance regarding extended absences that may affect the fulfillment of coordinator's responsibilities. Give the SCNS at least six weeks' notice if coordinator is no longer able to serve as DC.

APPENDIX D: RESPONSIBILITIES OF INSTITUTION CONTACTS

1. Serve as the primary point of contact between your institution and the SCNS.
2. Submit electronic course requests for the modification of existing course information and for the identification and numbering of new courses approved by the institution. Ensure the following:
 - Consistency with the basic principles and logic of the SCNS.
 - That faculty requests for new courses are submitted electronically with complete and accurate information.
 - That all course requests have the appropriate institution authorizations.
 - Compliance with the principle that although two or more equivalent courses may be taught by different departments at an institution, only one prefix and number may be assigned.
 - That no appeal request is submitted to the SCNS unless it has been reviewed carefully for consistency with the basic logic and principles of the SCNS precedents already established.
3. Be familiar with the basic logic, principles, procedures, and policies of the SCNS.
4. Be familiar with Florida Statutes and State Board of Education Rules/Board of Governors Guidelines related to the SCNS.
5. Ensure that information concerning the SCNS is widely disseminated on your campus so that faculty and students are completely and accurately advised. Assume responsibility for identifying and responding to misinformation. If additional information is needed, contact SCNS directly.
6. Assist with the selection of faculty Discipline Coordinators.
7. Verify that courses in the SCNS accurately reflect course offerings at your institution by periodically performing accuracy checks and reviews (including General Education and Gordon Rule notations).
8. Assume responsibility for the five-year purge of courses from the SCNS that are no longer offered at your institution.
9. Assume responsibility for verifying that the annually updated description of the SCNS is published in the institution's course catalog.

APPENDIX: CRITERIA FOR NONPUBLIC INSTITUTION PARTICIPATION IN THE SCNS

General

Agree to abide by SCNS requirements and responsibilities (authority: s. 1007.24(6), F.S.; SBOE 6A-10.043(1)(b), F.A.C./Board of Governors Guideline; see Appendix B).

Accreditation

Each institution must be fully accredited by an accrediting agency recognized by the United States Department of Education (authority: section 1007.24(6), Florida Statutes; see Appendix B).

Licensure

Each institution must be licensed to operate in Florida, or be exempt from licensure (authority: s. 1007.24(6), F.S.; see Appendix B).

Fees

Nonprofit institutions or those participating prior to July 1, 1986, will not be charged the costs associated with participation in the SCNS (authority: s. 1007.24(6), F.S.; see Appendix B).

For-profit institutions that join the system after July 1, 1986, will be charged fees associated with participation in the SCNS (authority: s. 1007.24(6), F.S.; Fees: 6A-10.043(2), State Board of Education Rule/Board of Governors Guideline, FAC; see Appendix B).

Application Fee	\$1,000 (one-time fee)
Entry Fee	Yearly fee for all institution course transactions—new courses, course changes, discontinue courses. Fee is set at \$50/new course, \$25/course revision.
Maintenance Fee	Yearly fee for all courses maintained on the SCNS database (exclusive of those course transactions billed above). Fee is set at \$0.30/course.
Site Visit Fee	\$300/day
Reinstatement Application Fee	\$300 (one-time fee)

Faculty Requirements

Section 1007.24(7), F.S., requires, “The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution.” All courses for non-regionally accredited institutions that participate on the SCNS will be reviewed based on the requirements of the Southern Association of Colleges and Schools (authority: s. 1007.24(6)(7), F.S.; section 3.7.1 Commission on Colleges, Southern Association of Colleges and Schools, Principles of Accreditation; Commission on Colleges, Southern Association of Colleges and Schools, Faculty Credentials Guidelines).

Academic Transfer

Faculty teaching courses designed for transfer to an academic degree (associate in arts or baccalaureate degree) must have a doctorate or master's degree in the teaching discipline or a master's degree with a concentration in the teaching discipline (a minimum of 18 graduate semester hours in the teaching discipline).

AS/Occupational Level Transfer

Faculty teaching courses not designed for transfer to an academic degree (associate in arts or baccalaureate degree) but may transfer to an occupational associate degree must have a bachelor's degree in the teaching discipline, or associate's degree and demonstrated competencies (such as professional certifications or licensure) in the teaching discipline.

Not for Transfer

Faculty qualifications do not meet minimum requirements for college-credit courses.

Course Numbers

Institutions that do not participate in the SCNS may not use the SCNS course classification system. Participating institutions with courses that will not be submitted to the SCNS may not use the SCNS course classification system for those courses. Any college or school deemed to be in violation of this section shall be subject to denial, probation, or revocation of license or certificate of exemption (authority: SBOE Rule 6A-10.043(3), F.A.C./Board of Governors Guideline; see Appendix B).
